## Early Childhood Services Professional Development

On-site training, coaching, and consultation designed to meet your program and staff needs.

- Convenient
- Flexible
- Cost Effective

Information learned, processed, and implemented by a group or team of staff members, has long-lasting effects on the quality of care provided to children and their families. When training occurs at the child care center with all staff involved, the results of the training are felt throughout the program.

EDUCATION CONNECTION can provide training at your center or other convenient location:

- At a time that works for you
- On a topic customized to meet your needs
- Delivered by high quality trainers with expertise in the topic you select

### FAQs

#### ***How will I choose a topic?***

Select a topic from our comprehensive training brochure. We can also customize a training based on your individual needs.

#### ***How many people can attend the training?***

It's up to you! We can offer training for 5-50 participants. Feel free to invite staff or parents from other child care centers to participate (and share the cost, too).

***How much will it cost?***

\$200 for a two-hour session. If you have other specialized requests or a larger group, costs will be negotiated.

***How is recruitment and registration handled?***

The host center handles these details. Once the date and time are established with us, you handle the recruitment, registration, and collection of a fee (if applicable). EDUCATION CONNECTION's trainer, with expertise in the topic you choose, will arrive with handouts, overheads, or PowerPoint, and present to the group you have assembled.

***What type of space do I need?***

A comfortable training location would include adult chairs (and tables if possible), a TV/DVD player, blank wall or screen for overheads/PowerPoint, and an electrical outlet.
